EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science , CGPA: 8.5/10

Sep. 2023 – May 2027

Bhopal, Madhya Pradesh

CORE COMPETENCIES & SKILLS

Strategic Operations: Cross-Functional Management, Founder's Leverage, Project Management, Resource Allocation

Data & Analytics: Advanced Data Analysis, Market Research, Performance Metrics tracking, Predictive Modeling

Product & Strategy: GTM (Go-To-Market) Strategy, Competitor Benchmarking, Workflow Automation, User Journey Mapping

Tools & Frameworks: Excel/Google Sheets, SQL, Tableau/PowerBI (Concepts), Figma, Python (Pandas/NumPy), Git

EXPERIENCE

Founder's Office Intern

May 2026 – Jun. 2026

QualityVista

On Site

- Assisted leadership in driving high-priority business expansion strategies, assessing cross-departmental alignment to successfully maximize operational efficiency and execution speeds by 25%.
- Owned the lifecycle tracking and project management parameters for 30+ cross-functional operational deliverables, drastically minimizing bottlenecks and optimizing horizontal team productivity.
- Synthesized extensive qualitative market insights and competitor landscape metrics into clear business-readiness briefs to back fast-paced executive data strategy pipelines.
- Formulated company-wide communication playbook frameworks, fostering unified alignment on business milestones, mission-critical delivery targets, and long-term ecosystem standards.

PRODUCT & STRATEGY PROJECTS

RoomSync | Operations Architecture, Ecosystem Management, Process Optimization

2026

- Conceptualized and structured a highly efficient marketplace platform engineered with a strict **3-tier portal hierarchy (User, Owner, Admin)** to address real estate delivery friction and compress housing discovery timelines to an absolute minimum.
- Optimized user acquisition pipelines by modeling automated match verification loops, reducing manual discovery cycles by an impressive **40%** while ensuring end-to-end transaction transparency.
- Designed internal administrative monitoring dashboards that enabled live-tracking of listed properties, boosting operational data integrity metrics across regional property inventories by over **35%**.

NearbyNow | GTM Strategy, User Experience Optimization, Commerce Operations

2026

- Directed the operational planning and structural scope for a localized business discovery application, mapping query behaviors to lower information retrieval delays under 150ms for maximum merchant engagement.
- Authored extensive business requirement blueprints for ****10+ platform feature sets****, spanning real-time notification funnels, product review moderation matrices, and granular merchant performance dashboards.
- Evaluated product conversion parameters, optimizing user landing flows and technical infrastructure to lower bounce factors and maximize client platform delivery by 14%.

COMPETITIONS, LEADERSHIP & ACHIEVEMENTS

Competitive Performance & Strategy -

- GRABHACK National Hackathon (Pre-Finalist): Managed and led strategy for an independent team, securing a spot in the **Top 98 out of 4,500+ global registrations** through rigorous project delivery under a strict 36-hour window.
- Quantitative Analysis: Solved **over 300 analytics logic architectures** on LeetCode and **over 423 complex data problems** on GeeksforGeeks, demonstrating steep data literacy, structured problem solving, and analytical speed.

Cross-Functional Team Leadership -

- Lead Content Strategist, EV Club: Formulated the technical publication roadmap and independently researched and authored 12+ macro-level industry publications, capturing an organic reader base of over 1,000+ views.
- Operations & Brand Designer, ED4U Club: Managed end-to-end visual execution and campaign deployment strategies for 25+ digital initiatives, directly increasing overall target engagement benchmarks for cybersecurity events.
